

ECRC ~ SIMEC

JOB OFFER

Operations support – Training

(full-time permanent position)

The role of the Eastern Canada Response Corporation (ECRC) is to provide oil spill response services. We have one position available for **Operations support – Training** for the Vercheres response centre.

The responsibilities of the **Operations support – Training** position are focused on :

- **Responder training**
- **Oil spill preparedness activities**
- **Maintenance and testing of response equipment**

Job requirements :

- Job-related diploma
- Valid driver's license (class 5)
- Marine (small vessels) and/or industrial experience
- Experience and/or training in adult education
- Experience in supervising projects and small groups of workers
- Experience in preventative maintenance and repair of small engine and mechanical equipment

Desirable qualifications :

- Experience in emergency response involving oil spill or industrial cleanup
- Excellent written and oral communication, and experience in the use of computer systems (word processing, spreadsheets, database, and presentation software)
- Ability to function in challenging response situations that requires occasional short-notice travel
- Experience and ability to follow standard operating procedures and adhere to company policies
- Self-Motivated team player capable of functioning in a dynamic environment
- Bilingualism (English and French) is an asset for this position

Salary to be commensurable with skills and experience, and full range of benefits are available.
Start date : as soon as possible.

To apply, send your CV and letter of interest to :
